General Telephone Is Mailing Refund Checks

Refund checks are now being mailed to General Telephone Company customers in Alabama, it was announced by C. A. Swallows, General Manager.

The amount refunded covers the difference between the increased schedule of rates set by court order and the original rate schedule which was reimposed by a later court order.

On January 24, 1969, the Montgomery County Circuit Court issued an order terminating its previous order dated November 23, 1968, which allowed the telephone company to collect increased rates under bond.

The telephone firm began mailing the checks to customers last week in separate envelopes. Swallows said the company will continue to send out the checks on a regular schedule until all checks have

been mailed by the March 7 billing cycle.

Swallows emphasized that the refund checks will offset all increased rates previously billed to customers. He further emphasized that payment in full of the amount billed will be required to bring accounts up-to-date.

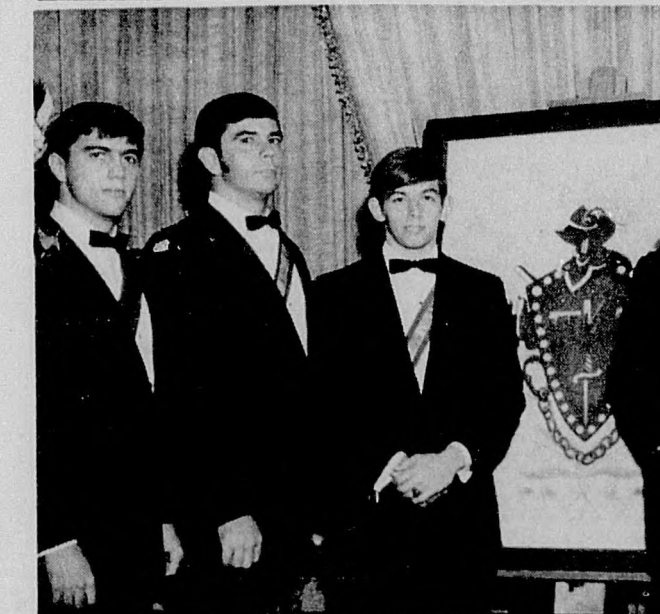

Refund checks being sent out include interest at 6 per cent covering the increased rates billed for the period December, 1968 through January, 1969.

Public Meeting Nets \$15,000 For Factory

At the public meeting, called last Friday night to discuss the progress with the I. B. Kleinfert Rubber Company, interested citizens pledged over \$15,000 cash toward the cost of preparing the temporary building the company would use. Additional money was sent in during the next several days bringing the total to almost \$21,000 at press time.

The meeting was called to explain to the public all the details of the talks with the company officials, bonding agents and state officials. At the close of this, Mayor Brunson disclosed that a minimum of \$25,000 was needed to prepare the temporary quarters in New Town. A spontaneous flood of volunteer contributions followed a report of Councilman Sam Sawyer on the amounts he had pledged from out of town offices of firms doing business in Elba. Sawyer interrupted again when he saw the enthusiasm and said, "If we don't do it, I am going to leave Elba."

Observes thought that a rather safe statement considering the mounting list of donations already received.

If the company does come to Elba, they plan to construct a 60,000 square foot building in the Industrial Park. The building and machines will be financed under the Wallace or Cater act of the state of Alabama and the cost will exceed 3/4 million dollars.

ELBA CITY SCHOOLS

ELBA ALABAMA

NOTICE OF SCHOOL DESEGREGATION PLAN

UNDER TITLE VI OF THE CIVIL RIGHTS ACT OF 1964

For the 1969-70 school year, our school system will continue the freedom of choice plan which was in effect for the current school year for all grades. Any student may choose any school in our system, regardless of whether that school was formerly all white or all Negro. It does not matter which school your child is attending in 1968-69. You and your child may select any school you wish for the 1969-70 school year.

Every student must make a choice of schools. If a child is entering the ninth or higher grade, or if the child is fifteen years old or older, he may make the choice himself. Otherwise a parent or other adult serving as parent must sign the choice form. A child enrolling in the school system for the first time must make a choice of schools before or at the time of his enrollment.

On the first day of the choice period, an explanatory letter and a school choice form with a return envelope addressed to the Superintendent will be sent to every parent or other adult serving as parent, of each student then in the schools who is expected to attend school the following year. It must be completed and returned by March 31, 1969. You may mail it in the envelope, or deliver it by messenger or by hand to any school principal or to the Superintendent at any time between March 1 and March 31. No one may require you to return your choice form early. When forms are returned after March 31, they may be subordinated to choices made on time in the event of overcrowding at the school chosen.

No principal, teacher, or other school official is permitted to influence anyone in making a

choice or to require early return of the choice form. No one is permitted to favor or penalize any student or other person because of a choice made. A choice once made cannot be changed except for serious hardship.

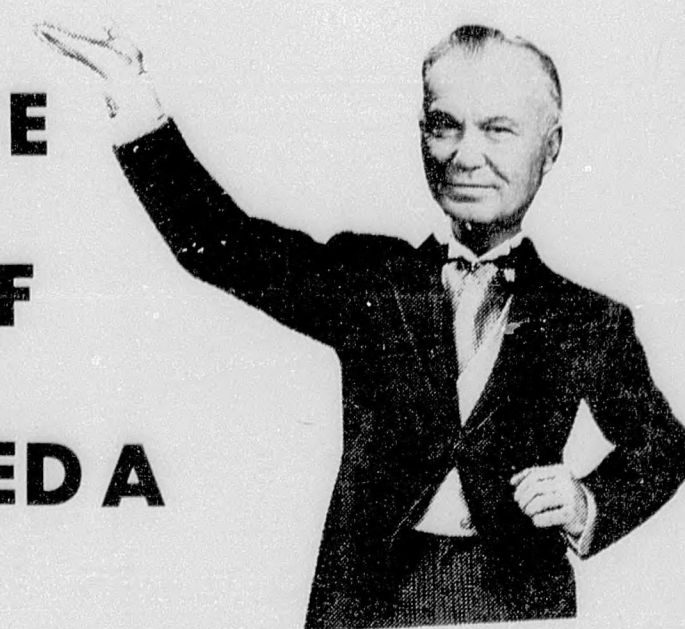

No child will be denied his choice unless for reasons of overcrowding at the school chosen, in which case children living nearest the school will have preference without regard to race. Transportation will be provided, if reasonably possible, no matter what school is chosen. The school board will continue to make minor changes in routes to insure that there will be no overlapping and duplication in the bus routes based on race and that the students will be assigned to buses without regard to race. Transportation cannot be reasonably expected to schools far out of your attendance area. If you have any questions about the availability of transportation, call your school board office.

Your school board and the school staff will do everything we can to see to it that the rights of all students are protected and that desegregation of our schools is carried out successfully. Any interference or attempted interference with the free exercise of choices should be reported immediately to your local Superintendent of Education or to the State Superintendent of Education.

The race of the child, for whom the choice is made and the choice form returned, is significant only to facilitate reporting on the results of the choice period to the Court and to facilitate the Court's determining whether the requirements of the court orders are being met.

HAVE YOU A "POISON SAFE" HOME?
A "poison safe" home is one where all medicines are enclosed out of reach of children and all dangerous household cleaners are also stored, where the latch is so high, busy little fingers cannot open it. But, there are other dangers.

HERE ARE A FEW LIFE SAVING HINTS.
Do not permit visiting ladies to place their pocketbooks on the floor or on chairs. Little children like to open them and play with their contents. A purse is a trap for it usually contains diet, blood pressure, diabetes or tranquilizer tablets, all of which are a great danger.

BEWARE SWALLOWING CAMPHORATED OIL.
Too often adults wrongly take it internally for coughs and colds. It affects the central nervous system. It causes convulsions and a surprisingly small dosage can be fatal to both children and adults.

WATCH OUT WHEN TAKING IRON MIXTURES.
Ferrous sulphate or other iron compounds, in medicines for anemia, are so dangerous if the dosage is too high that they usually require hospitalization almost as often proportionately as life.

FOLLOW YOUR PHARMACIST'S EXAMPLE.
A pharmacist will not use or dispense any medicine unless he first reads the label carefully, when taking it off the shelf, reads it again when measuring the dose or counting out the tablets and reads its name and the directions once more before dispensing it to you. You should check each label the same way before using its contents.

Letter To
The Editor

Dear Sir:
Last Friday I was privileged to visit an organization at the Jacksonville State University campus designed to study American Government. Some one thousand plus high school seniors and several hundred college students were present. Judge Gus Cunningham of Gadsden, Ex-Congressman Albert Rains, Speaker Pro-Tem of the Alabama House of Representatives, Honorable Hugh D. Merrill, and United States Senator Edward Muskie spoke to the students. This is a fine youth organization designed to promote good citizenship and the American way of life. It is one of the many fine "brain-children" of Dr. Houston Cole, the Jacksonville State University President.

A most important observation was pointed out noted in an office where all the professional participants gathered just prior to the final assembly of some 2,000 young people. It was said that not a single long-haired boy was present for the conference. This included boys from the high schools all over Alabama and from most of the colleges. It was further said that every girl and boy were appropriately dressed and genuinely concerned about the future of this country. It was said that many of the young people disagreed with some of the statements of the speakers, but their dis-similarity and belief in Alabama youth, intelligent, and honest.

As one who is keenly yours sincerely, interested in the problems and welfare of youth, my experiences and observations last Friday confirm of Education State Superintendent Ernest Stone.

ASCS Advises
Farmers To
Come Early

"Come early and avoid the crowd" was the perennial advice from agricultural Stabilization and Conservation Offices across the country as the 7-week period for producers sign up in farm programs passed midpoint and edged toward its March 21 deadline.

Although ASCS offices in Alabama will take applications to participate in the farm programs anytime through March 21, producers are urged to file applications as early as possible, according to Roy L. Ellis, Chairman of the County Agricultural Stabilization and Conservation Committee. The programs are voluntary and farmers sign up for them in order to take part, Ellis said. Signup brings into focus crop plans for the year ahead. In short, farmers indicate their intentions to take part in the programs for 1969, including the extent to which they will participate in the wheat and feed grain programs.

Rate Increase
Granted On Monday

The Public Service Commission granted General Telephone Company a rate increase - 50% of what the company has asked - on Monday of this week. The company had asked for a rate that would have tripled cost to the users in this area.

Company officials in Dothan voiced their displeasure with the amount of the increase and Governor Brewer was also unhappy. But for different reasons. General officials thought that the rates should be higher and Governor Brewer thought the rates were too high considering the telephone service rendered in the area.
